BUSINESS INSIGHTS AND RECOMMENDATIONS

1. Checking accounts drive the most complaints

Insight: Checking accounts drive the most complaints Insight. Checking & Savings is the largest product, with 24,814 complaints (40% of the total), and checking accounts alone account for 20,768. Most of these (15,109) are about managing an account. Within that issue, the top problems are deposits and withdrawals (5,596) and debit or ATM card problems (3,356), followed by banking errors and funds not handled as instructed.

Recommendation: The organization should review that whole process of deposit and withdrawals to see where customers get stuck and find ways to easen the process

2. Timely responses are strong overall, but slipped in 2023

Insight: The organization is actually performing great when it comes to having timely responses with a rate of 96.1% rate on closed complaints.although since 2022 to 2023 the rate has reduced from 95.7% to 93.1%

Recommendation: Set a target of at least 95% timely, measured on closed complaints only, also review what may be leading to the drop in timely responses

2022 2023

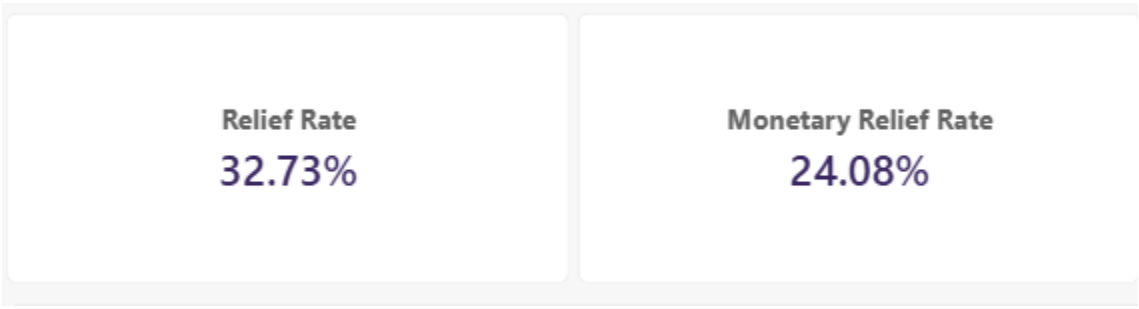

3. **A Third of complaints end In relief, mostly on cards and checking accounts**

Insight: 32.7% of closed complaints ended with relief for the customer, Most of that was monetary relief, at 24.1%. Relief rates vary widely by product. Credit & Prepaid Card (40.7%) and Checking & Savings (38.5%) have the highest rates, while Credit Reporting (19.3%) and Debt Collection (11.9%) have the lowest.

Recommendation: Audit these issues well for the top products in order to fix any underlying system/process bugs that may be leading to errors hence reducing recurring refund leakages

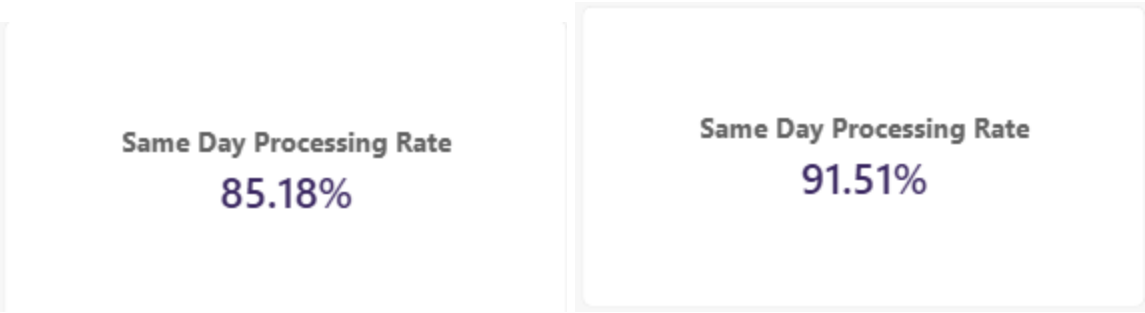

4. **Same day Receipt has Improved**

Insight: The same day processing rates have really improved over the years, with 2023 improving from 85.18 % to 91.45%, complaints raised via the web have the highest same day processing rate of 92.2%

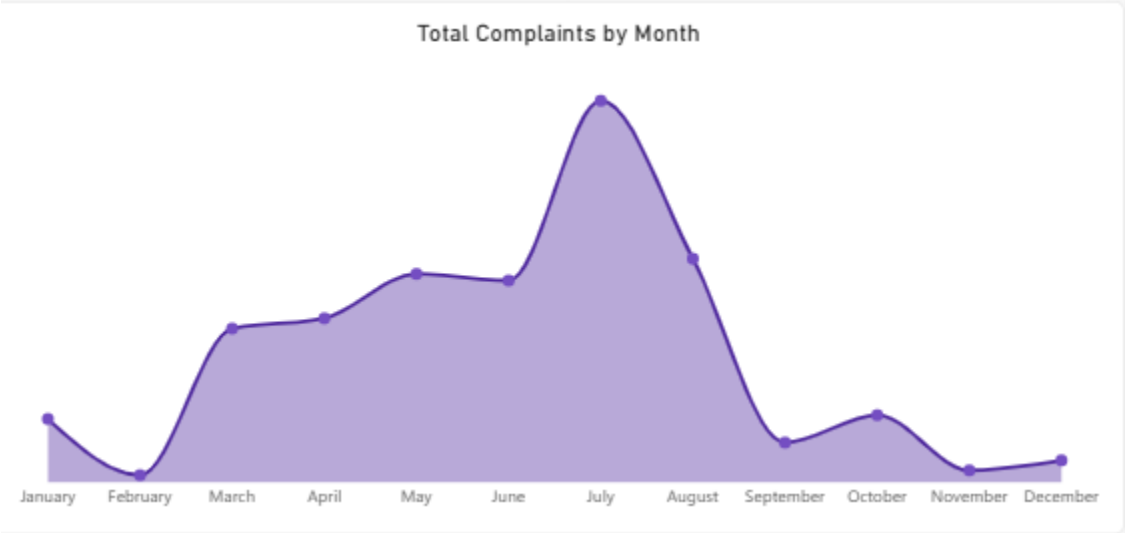

Recommendation: Keep encouraging customers to use the web channel, since it is faster

2022 2023

5. **July has the highest number of complaints**

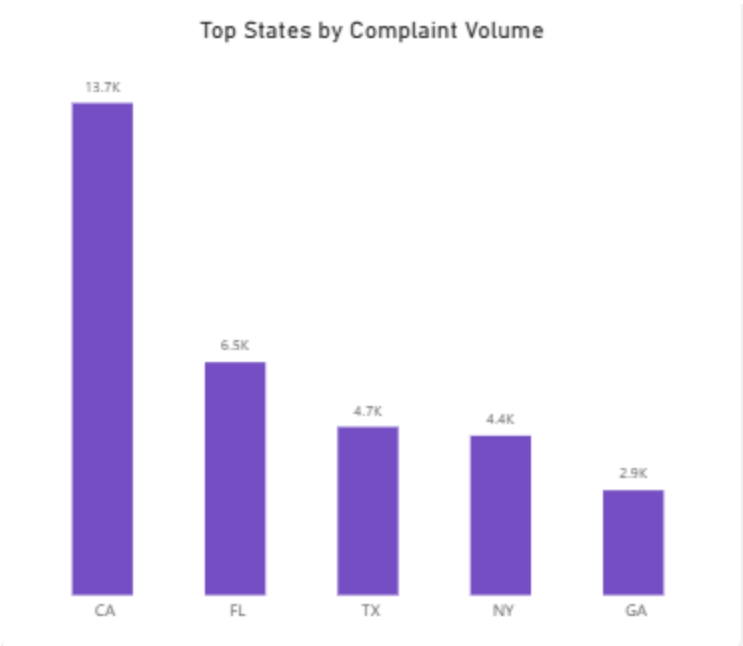

Insight: July has the most number of complaints over the years with a total of 6474 complaints.
Recommendation : the organization should ensure there are enough staff members ready to sort out the raised complaints

6. **Complaints concentrate in a few large states**

Insight: California accounts for 22% of all complaints (13,709), followed by Florida (6,488), Texas (4,686) and New York (4,442). These four states make up 47% of the total.

Recommendation: Focus regional customer-experience efforts on the top four states first, where an improvement reaches the most customers.
